

Clinical Assistant or Clinical Associate Professor in Zoological Companion (Exotic) Animal Medicine

Cummings School of Veterinary Medicine at Tufts University in North Grafton, MA, invites applications for a part-time (50-75% FTE) Clinical or Faculty-Track position in zoological companion animal medicine at the assistant or associate professor level. This position will become a full-time position in July of 2020. Requirements include a DVM degree or its equivalent and completion of a formal residency in zoological companion (exotic) animal medicine. Preference will be given to individuals who are ACZM board certified or board eligible and/or ABVP Avian, Exotic Companion Mammal, or Reptile/Amphibian board certified. Rank and salary will be commensurate with training and experience. Strengths are required in teaching and clinical service. Research experience is desirable.

The selected candidate will join Dr. Jennifer Graham on the Zoological Companion Animal Medicine Service within the Foster Hospital for Small Animals in North Grafton, MA. This service provides care to companion pet exotic animals including avian, small mammal, and reptile/amphibian species. Zoological species are seen from local zoos and aquaria. Provision of superb patient care, teaching of students, and clinical research are priorities for the service. The selected candidate will run this service on alternating weeks with weekend back-up provided to the Hospital.

The position is available immediately, and the search will be continued until a suitable candidate is identified. Please send a letter of intent, current curriculum vitae, and names of three professional references via Interfolio link: <https://apply.interfolio.com/65224>. Inquiries can be directed to Dr. Graham at (508) 887-4745 or jennifer.graham@tufts.edu.

Tufts University is an Equal Opportunity/Affirmative Action employer.
