

### Technician Position at Exotics only practice:

Do you love a challenge? Are you interested in expanding your skills? Do you have a passion for birds, reptiles and exotic mammals? Exotic Animal Veterinary Center is growing and we need more technicians. We are a full-service veterinary clinic with 5 veterinarians on staff. We believe our techs and assistants are the backbone that allows us to provide high end medical care for our patients who are just a little bit different from the norm. At our hospital technicians perform venipuncture on a variety of species, take radiographs, place intravenous catheters, manage anesthesia, administer treatments to hospitalized pets, and discuss husbandry recommendations with clients. A practical working knowledge for a large number of exotic species is needed and clinical experience with exotics in a practice setting is desirable. A sense of humor is required. Registered Veterinary Technicians are preferred, will consider experienced tech assistants. After a 90 day trial period, our compensation package includes paid vacation and sick days, paid holidays, ample in-house educational opportunities for technicians as well as paid Continuing Education, employee pet discount program, and a uniform allowance. Benefits also include a drama free facility and lots of fun while working in a fast-paced, extremely interesting environment. For more information about our unique clinic visit our website at [exoticanimalcarecenter.com](http://exoticanimalcarecenter.com) and also take a peek at our Facebook and Instagram pages. We are located in Pasadena and our hospital is a beautiful, brand new, and state of the art facility. Please email resume to [aprile@eaccpasadena.com](mailto:aprile@eaccpasadena.com).
