

Job ad – CBEAM Veterinary Intern

The Center for Bird and Exotic Animal Medicine (CBEAM, www.theexoticvet.com) is looking for two additional rotating intern veterinarians to join our team. Located near Seattle, WA, CBEAM is rapidly growing to meet the needs of our clients. We are exotics-exclusive, staffed 24/7, and provide both emergency and routine preventative care to our patients. We recently added CT and fluoroscopy to our clinic, and already have digital radiography, ultrasound, endoscopy, and specialized surgical equipment. We also have access to multiple other local clinical specialists (cardiology, radiology, oncology, etc.).

We currently have 11 full time doctors (including 1 ABVP board certified avian specialist, 1 full time veterinary resident, and 2 full time interns), 6 techs, and 12 assistants.

The available intern positions are primarily focused on emergency exotic medicine with rotations through routine appointments and surgery. All intern candidates must be willing to work a rotation schedule of overnight and swing (afternoon/late evening) shifts.

This position is a great opportunity for someone who practices high quality medicine and is interested in becoming boarded in exotic medicine. Mentorship and support is available, and continuing education is provided for doctors twice weekly to ensure that everyone is up to date on the latest advancements in the field.

Our ideal intern candidate is someone who has completed a previous internship in either dog/cat medicine or emergency medicine. We are willing to consider an intern with less experience if they are the right fit for our practice. The intern must have excellent interpersonal skills.

Interested candidates should send their CV/resume, as well as at least two employment references, to cbeammdvms@gmail.com
