

## **Full-Time Reptile Oriented Veterinarian Wanted for Exotics Exclusive Practice**

Looking for an experienced exotics veterinarian with a passion for reptiles (ABVP certified/seeking/eligible would be the bomb!) to fill the missing link at the first/only 100% exotics practice in Western New York state. Specialized Care for Avian & Exotic Pets is a primary care/referral hospital located in Buffalo, NY just 30 minutes from Niagara Falls and 2.5 hours from Cornell. As we celebrate our 10th anniversary in 2022, we have an ABVP boarded Avian & ABVP boarded Exotic Companion Mammal veterinarian on staff. With the explosion of reptiles in our industry (and practice), the time is right for us for the right person to take this part of our practice to the next level. Help us make the Trifecta! (BTW, the skiing is awesome here). E-mail Laura Wade [buffalobirdnerd@gmail.com](mailto:buffalobirdnerd@gmail.com)
